Mental health creates mental capital There is no health without mental health (1) Mental health is an indivisible part of public health and significantly Impact of economic crises on mental health - WHO/Europe - The difference between stress and burnout. Burnout may be the result of unrelenting stress, but it isn't the same as too much stress. Stress, by and large, involves too much: too many pressures that demand too much of you physically and mentally. However, stressed people can still imagine that if they can just get everything under control, they'll feel better. Burnout Prevention and Treatment - HelpGuide.org -
