Welcome to the Los Angeles Tall Buildings Structural Design Council world-wide-web home page. The Los Angeles Tall Buildings Structural Design Council formed in 1988 is a nonprofit organization whose members are those individuals who have demonstrated exceptional professional accomplishments in the structural design of tall buildings. Sat, 16 Feb 2019 22:07:00 GMT Los Angeles Tall Buildings Structural Design Council - Structural functionalism, or simply functionalism, is "a framework for building theory that sees society as a complex system whose parts work together to promote solidarity and stability". This approach looks at society through a macro-level orientation, which is a broad focus on the social structures that shape society as a whole, and believes that society has evolved like organisms. This action can be in the form of load due to the weight of things such as people, furniture, wind, snow, etc. or some other kind of excitation such as an earthquake, shaking of the ground due to a blast nearby, etc. In essence all these loads are dynamic, including the self ...
